JUMPSTART!

A UnityLink funded program
and initiative

What is the JUMPSTART! Program?

This program will inspire, empower, teach, educate and motivate you to secure sustainable employment or education outcomes. Over 5 days, we will challenge your perception of things, motivate and empower you to make changes in your life to achieve the outcome you want...and have some fun at the same time! Following that, we'll actually help find the job you want or help you apply for the course you want!

This is a **FREE PROGRAM!**

It's funded entirely by UnityLink until March 2011. We will work with referring agencies such as Schools, Job Services Australia providers, Youth Connections, Brimbank Youth Services, Melton Youth Services and other Youth organisations in the Brimbank and Melton areas.

Modules include:

- The Stepping Stones to the job you want, Career Paths & Options
- How to find a job (hidden job market)
- Communication Skills
- Securing an interview
- Interview Techniques – dealing with those difficult questions!
- Apprenticeships and Traineeships
- Local Job Market
- How to turn your life skills into employment skills
- Barriers to employment
- The JUMPSTART! Team marketing you to employers

Where to When You Leave School?

Are you undecided on what to do when you leave school? Not sure what your options are? What you'd be suitable for or even where to start looking?

Let UnityLink help you in your career path. Our JUMPSTART! Program will motivate you and provide you with information and options after school to help you make the move into employment opportunities. It's not just an information sharing program, we actually help you find a job, or the course you want as well!

JUMPSTART!

“JUMPSTART! will empower, educate and motivate”
